in the way that only haanel can do haanel defines man's place in the universe and reveals his latent powers with a vividness that

reminds the reader of a lightening flash after you read the new psychology you'll see everything a little differently synopsis the supreme charm of the new psychology is the practical character of its teachings the clarity and simplicity of its expression unlike many works that attempt to present psychical truths it is not a tangled skein of disconnected thoughts but an orderly logical and well reasoned system the new psychology with a synthesis of philosophy science metaphysics and religion defines man's place in the universe and reveals his latent powers with a vividness that reminds the reader of a lightening flash the seeker for truth will find in its pages the keys to the treasure house of the world's wisdom about the new psychology the new psychology is quite different from haanel's other works in the new psychology haanel expands on the ideas and theories behind mental science and offers to you many examples and proofs that bolster the claims made while this work is almost one hundred years old everything holds true to this day i attempted to footnote things as extensively as possible i am certain that when haanel wrote this book the people he mentioned were more than likely household names james j hill while almost unheard of today was pretty much the bill gates of his time i hope my footnotes help put things in perspective for you the new psychology is a must for anyone who wants to understand the mental science it is also a must for anyone who wants to thoroughly understand haanel and his beliefs through his words we can get a clearer picture of him as a thinker explorer and perhaps even a visionary here are just a few things that you will learn as you read charles f haanel's the new psychology the psychology of success the man with the money consciousness is constantly attracting money the man with the poverty consciousness is constantly attracting poverty both fulfill the exact conditions by thought word and deed that make the path for the thing of which they are conscious come to them as a man thinketh in his heart so is he job said the thing i greatly feared has come upon me in modern psychological language it might better have been stated this way the thing i was greatly conscious of came upon me consciousness or thought and faith are mental wires by which the thing we are conscious of finds its way to us the law of abundance abundance is a natural law of the universe the evidence of this law is conclusive we see it on every hand everywhere nature is lavish wasteful extravagant nowhere is economy observed in any created thing the millions and millions of trees and flowers and plants and animals and the vast scheme of reproduction where the process of creating and re creating is forever going on all indicate
