Use the stimulus later to access the same emotional state
2. **Swish Pattern** This technique helps in replacing undesirable behaviors or thought patterns with positive ones.
Identify the unwanted behavior or thought
1. Create a vivid mental image of the unwanted pattern
2. Develop a compelling image of the desired behavior or thought
3. Swish the images in your mind—making the positive image larger and more prominent
4. Repeat until the new pattern becomes automatic
3. **Meta Model** The Meta Model is a questioning technique that helps clarify vague language and uncover limiting beliefs, enabling better understanding and problem-solving. Ask specific questions to identify assumptions and distortions in communication
Challenge limiting beliefs
Reframe negative statements into empowering ones
4. **Milton Model** Based on Milton Erickson's hypnotic language patterns, this technique is used for indirect influence and suggestion. Use vague, permissive language to guide the listener
Embed suggestions within normal conversation
Facilitate subconscious change without resistance
